

## Product Data

Made of food-safe, UV-stabilized plastic

Each EarthBox includes:

- 1 EarthBox container
- 1 aeration screen
- 1 water fill tube
- 2 Black/White reversible mulch covers
- 1 instruction sheet
- 1 set of casters

29" L x 11" H x 14" W

Soil Capacity: 2 cu ft

Water capacity  
(does not include soil holding capacity):  
3 gallons

Approximate Saturated  
Weight per Square Foot:  
65.28 psf

Made in USA

# EarthBox Planter System

The EarthBox gardening system allows you to overcome poor soil conditions and small spaces and allow you to garden anywhere! Use them to garden with ease in your backyard, on a balcony or porch, or on a roof.

This sub-irrigated system uses less fertilizer and water than other systems. By simplifying the watering process these make it easy for beginning growers to have success.

Irrigation systems are available to automate watering and further simplify growing your own.
