

GRS 52 Drainage Panel

GRS 52 is designed to be a water retention and drainage component suitable for intensive and extensive green roof systems.

Water flows through the entire panel via reservoir cups and channels to assure uniform distribution.

Rounded edges on the bottom of the panels prevent roof damage.

FEATURES AND BENEFITS

- Compatible with various roofing membranes
- Panels snap together for fast, easy installation
- Exceptional water retention rate
- Recycled content polymer contributes towards LEED points

PRODUCT DATA

Material	100% recycled HDPE (black - shade may vary) Conforms to ASTM D-256 and ASTM D-790
Size	24" x 24" x 2 1/8"
Weight (Dry)	0.86 lbs/sq ft 4.17 kg/m ²
Weight (Incl. Water)	3.79 lbs/sqft 18.52 kgs/m ²
Water Capacity	0.352 Gal/sf
Working Temperature	-40°F to 212°F
Warranty	5 years
